EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech.IT	Rishi MS Institute of Engineering & Technology for Women, JNTUH	8.15	2023-27
Senior Secondary	Sri Chaitanya Junior College, Bhaskar Bhavan	92.8%	2021-23
Secondary	Sri Chaitanya Techno School (SSC Board)	10.0	2020

PROJECTS

- **Neo-Mind (AI-Based Early Detection of Neurodevelopmental Disorders in Newborns)** [Github](#)
— Designed an AI-based system to assist in early detection of neurodevelopmental disorders in newborns using symptom pattern analysis and predictive modeling concepts, improving early screening accuracy and awareness.
— Technologies Used: React.js, Flask (Python), REST APIs, Google Gemini 2.5 Flash (Multimodal AI), Gemini Vision, Gemini Audio, Custom CSS, Render deployment, HIPAA/GDPR-compliant architecture.
- **Hyderabad Yatra (Smart Travel Guide)** [Github](#)
— A full-stack web application that serves as a smart travel guide for Hyderabad, featuring places to visit, food recommendations, hotels, transport, budget planning, and an interactive map all with user authentication.
— Technologies Used: Python (Flask), SQLite, HTML, CSS, JavaScript, Jinja2, Gunicorn, Render deployment.
- **Recipe Recommender** [Github](#)
— A responsive web application that helps users discover delicious Indian recipes based on ingredients and dietary preferences.
— Technologies Used: HTML5, CSS3, JavaScript (ES6), Font Awesome, Google Fonts (Poppins).

PROFESSIONAL EXPERIENCE

- **Open Source Contributor – [Viswam.ai](#) (IIIT Hyderabad)** **May. 2025 - June. 2025**
— Contributed to AI-focused open-source projects by enhancing code quality and implementing project improvements.
- **Python Development Intern – CodeAlpha** **June. 2026 - July. 2026**
— Completed an internship focused on Python programming, on problem-solving tasks & building small projects.
- **Workshop Participant – Google AI & MongoDB (Smart Bridge)** **June. 2026 - July. 2026**
— Attended technical workshops on Google AI and MongoDB, gaining exposure to AI concepts and MongoDB.

CERTIFICATIONS & COURSES

- **AI/ML Course – IIT Patna (Ongoing)**
— Currently pursuing training in Artificial Intelligence and Machine Learning concepts under IIT Patna.
- **Advanced Course on Emerging Technologies (AI/ML) – Code Unnati Program, Edunet Foundation (Supported by [SAP](#))**
— Gained knowledge in Artificial Intelligence & Machine Learning, Deep Learning, Edge Computing, and SAP Analytic Cloud.
- **Google Cloud Generative AI Skill Badges – Google Cloud Skills Boost**
— Completed 5 certifications in Generative AI, LLMs, Responsible AI, Prompt Engineering, Vertex AI

TECHNICAL SKILLS

- **Programming:** Python, Java, C/C++ (Familiar)
- **Development:** HTML, CSS, JavaScript, VS code, Git/GitHub, Flask, Django, REST APIs
- **Databases:** MySQL, MongoDB(familiar)
- **CS Subjects:** Data structures and Algorithms, OOPs concepts, Operating system, Computer networks, DBMS
- **AI/ML :** LLMs, Prompt Engineeering, Generative AI, TensorFlow, NumPy, Pandas, Data Preprocessing, RAG

ACHIEVEMENTS

- Achieved 3rd place in an Innovation Hackathon conducted by IGNITE Scale by designing the idea of a Solar Cooking Stove solution, integrating with IoT and Agentic AI.
